## TARGET

The Punk's lighter twin, the Riot, is for fun-seeking rebels looking to lighten the load for the ultimate freedom of the skies. The straight-talking Riot tells you about the air, so you're in control, while BGD handling, mid-B safety and high-B performance are the tools you need to be yourself and do your own thing. Break free, explore the skies and carve your own path. Have a Riot!

## DESCRIPTION

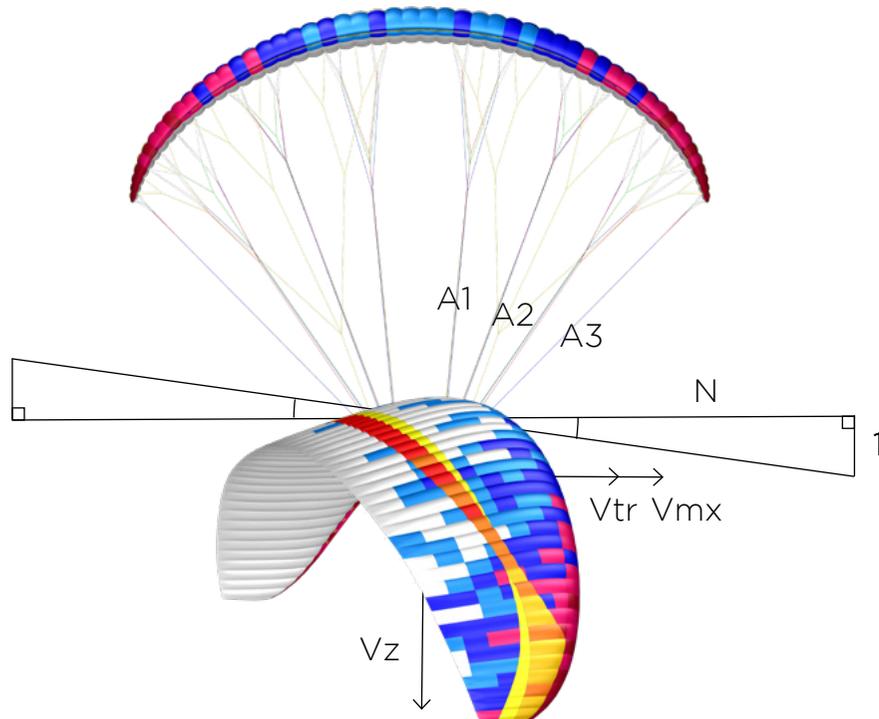

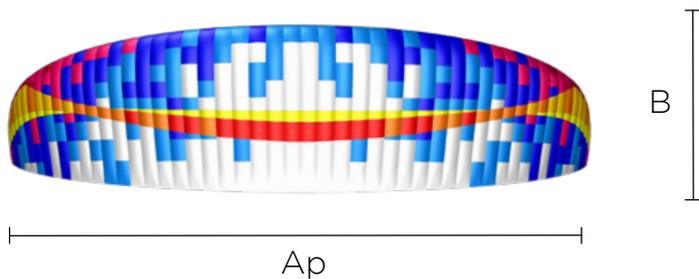

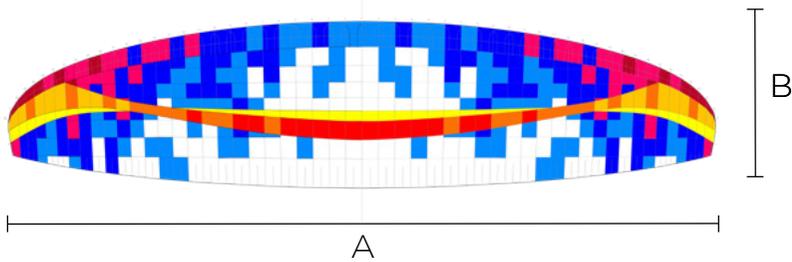

Around 20% lighter than our LTF/EN-B rebel Punk, the Riot is a fun-driven freedom-seeker of a wing. Under its vibrant chaos of wild pixel colours are some serious design features: Shark nose, Cord Cut Billow, Eyes Wide-Open safety and Progressive Stability make the Riot a high-performing, informative glider with fun handling and great agility. We've also extended the weight ranges of most sizes, so you can load up, head off and explore the skies on long adventures.
